Which words describe your personality?

Describe your strong sides:

I can very easily read people and understand their emotions.

Describe your weak sides:
Sometimes I get too sensitive to other people’s suffering, bringing me down as well. I can get a bit competitive at times, being a bit of a sore loser. Being a bit of a perfectionist sometimes gets in my way of what’s really important.

Describe the best holiday you have had:
The best holiday I’ve had would be my trip to Vietnam. It was my first longer trip, just my good friend and I. The country was incredibly beautiful and the people was so nice and hospitable. I fondly remember these two older people sitting near the street eating some homemade food, asking us to join them and eat their food, even though they seemed very poor. They didn’t understand English, so we just communicated using hand signs and the few words I learned from my travel book.

What do you like the most about your own country?
We don’t have a lot of inequality and poverty in my country. Education is free so everyone is given the same opportunities. Our crime rate is also low. We don’t see as much prejudice as in a lot of other countries.

I don’t really have idols or heroes, but one I admire for trying to make the world a better place through innovative technology is Elon Musk.

What were your childhood dreams?
As a boy, I always dreamed about exploring space, hoping by the time I got older space travel would be more common. I dreamed of exploring new worlds and meeting all types of alien races. In a way, I guess, I wanted to live out my life as in Star Trek.

A personal message from EDUARD
My motivation for being a Cryos International donor

To whomever might have interest in reading this letter,
I signed up for donation firstly for helping couples wanting children, but unable to do so without help. Being of good health and blessed with what I believe is good genes, it’s also nice to know it can contribute to something positive, since I’m not sure I’ll ever have any children myself.

I’ve always had the outlook on life, that it should be lived to its fullest. Even though life can be hard sometimes, it’s important to try and stay positive, for yourself and those around you. We only have the one life, so we should try and make the best of it.

I believe one should leave this world a better place than you found it, as Robert Baden-Powell once wrote.
