A personal message from BANDERA

## My motivation for being a Cryos International donor

I wanted to be a sperm donor because I personally feel like everyone deserves the opportunity to have a child. As a father of a son it's a beautiful experience to parent and raise a child. I know that some situations are difficult for some to bear children so I felt it was in my heart to assist. To whomever is reading this I want to tell you that being a parent is the best feeling in the world. I feel like this serves for a greater purpose beyond my understanding but in the end it's worth doing and respecting.
